^ Custom benchmark (refer to PDS for details)

Past performance is not an indicator of future performance for this option or any other option available from Colonial First State.

Returns are calculated on a cumulative year-on-year basis which are then annualised. For funds that have been in existence for less than one year, the since inception performance is actual performance since inception and not annualised. Calculations are based on exit price to exit price with distributions reinvested, after ongoing fees and expenses but excluding individual tax, member fees and entry fees (if applicable). Please refer to the PDS for full details of the applicable fees, costs, and benchmarks.

Investment objective

To provide long-term capital growth by investing primarily in growth assets. To closely track the option's composite benchmark over rolling three-year periods before fees and taxes.

Investment strategy

The option invests primarily in a diversified portfolio of shares and property and infrastructure securities to provide potential for capital growth. The assets are managed using market capitalisation indices. Allocations to asset classes will generally align to the benchmark but the option may adjust its exposure within the allocation ranges in response to changes in risk and return expectations. The portfolio aims to hedge currency risk, except for a part of the allocation to global shares.

Investment category

High Growth

Minimum suggested timeframe

At least 7 years

Portfolio holdings disclosure

The money in your investment option is invested across a range of assets. To see a full list of holdings for this option, please visit cfs.com.au/PHD
